## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **State Tax Commission** and the **Department of Economic Development** each assume the proposal will not fiscally impact their respective agencies.

Officials from the **Department of Revenue - DOR** state their response to a proposal similar to or identical to this one in a previous session indicated the department planned to absorb the administrative costs to implement the proposal. Due to budget constraints, reduction of staff and the limitations within the department's tax systems, changes cannot be made without significant impact to the department's resources and budget. Therefore, the IT portion of the fiscal impact is estimated with a level of effort valued at \$71,056 (4 FTE for a total of 4 months to make adjustments to the Missouri sales tax processing system - MITS).

**Oversight** assumes OA-ITSD (DOR) is provided with core funding to handle a certain amount of activity each year. Oversight assumes OA-ITSD (DOR) could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, OA-ITSD (DOR) could request funding through the appropriation process.

DOR also assumes their Customer and Tax Assistance section would need one additional FTE Revenue Processing Technician I for every 8,300 registrations/maintenance annually to business tax accounts. DOR assumes the cost for this additional FTE to be roughly \$43,000 per year.

Officials from the **Office of the Secretary of State - Libraries** state public libraries depend on local property tax income for a majority of their operating levies. Removing sections of property from the property tax rolls, or reducing the collectible tax on sections of property, will have a severely limiting effect on the income for public libraries. As written, this bill places no limitations on the amount (area) of property that can be excused from taxation. The impact on municipal libraries can be disproportionately larger than on rural libraries, due to the concentration of small businesses in those areas.

Officials at the **Office of the Secretary of State - Elections (SOS)** assume unless a special election is called for the purpose, Joint Resolutions are submitted to a vote of the people at the next general election. If a special election is called to submit a Joint Resolution to a vote of the people, section 115.063.2 RSMo requires the state to pay the costs. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people and Article XII section 2(b) authorizes the governor to call a special election to submit constitutional amendments to a vote of the people.

ASSUMPTION (continued)

The SOS is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article I, Section 26, 27, 28 of the Missouri Constitution and Section 116.230-116.290, RSMo. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with \$1.3 million historically appropriated in odd numbered fiscal years and \$100,000 appropriated in even numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2009, at the August and November elections, there were 5 statewide Constitutional Amendments or ballot propositions that cost \$1.35 million to publish (an average of \$270,000 per issue). Therefore, the Secretary of State's office assumes, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. However, because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly change the amount or eliminate the estimated nature of our appropriation.

**Oversight** has reflected in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2011. This reflects the decision made by the Joint Committee on Legislative Research, that the cost of the elections should be shown in the fiscal note. The next scheduled general election is in November 2010 (FY 2011). It is assumed the subject within this proposal could be on that ballot; however, it could also be on a special election called for by the Governor. Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2011.

To estimate the expense the state would incur for reimbursing local political subdivisions for a special election, Oversight requested expense estimates from all election authorities for an election. Eighty-six out of the one hundred fifteen election authorities responded to Oversight's request. From these respondents; the total election expense that would have to be reimbursed by the state government is over \$7 million. Therefore, Oversight will reflect a potential cost borne by the state in FY 2011 of over \$7 million for reimbursement to the local political subdivisions. Oversight assumes the Governor could call for a special election to be held prior to November, 2010 regarding this joint resolution; however, if a special election is not called, the subject will be voted on at the general election in November, 2010.

For purposes of the fiscal note for this Joint Resolution, **Oversight** will only reflect the potential cost of the holding the election, not the implementation of the changes if approved by Missouri

ASSUMPTION (continued)

voters. The potential loss of sales tax revenue and administrative costs to DED and DOR are reflected in the fiscal note for SB 596 (3081-01).

### FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

### FISCAL DESCRIPTION

This proposed constitutional amendment, if approved by voters, would allow for the creation of discrete tax-free or reduced-tax geographic districts for the purpose of promoting small business development to further economic development in such districts. No such district may maintain tax-favored status for a term longer than twenty-three years.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
